
Contributor License Agreement (Cover Sheet)

This Contributor License Agreement (“**CLA**”) is entered into among General Dynamics C4 Systems, Inc. (“**General Dynamics**”), NICTA IPR Pty Limited (ACN 118 121 387) (“**NIPR**”) (General Dynamics and NIPR together referred to as the “**Recipients**” and either of them as a “**Recipient**”) and the “contributor” identified below (“**Contributor**” or “**you**”), and governs all Contributions (as defined below). In order for you to submit Contributions to either Recipient, one of the Recipients must have a CLA on file that has been signed by you. The CLA consists of this Cover Sheet and the attached Terms and Conditions, as well as any schedules or attachments referenced therein.

Please read this CLA carefully before signing and keep a copy for your records. This CLA is a binding agreement. By signing this CLA, you will be granting a royalty-free, non-exclusive license to the Recipients to use the Contributions. However, you will retain ownership of the Contributions and will retain the right to use and license them to others (subject to the license granted to the Recipients under this CLA).

Please complete and sign this CLA, then scan and email a .pdf file of this CLA to NIPR at licensing@sel4.systems.

You enter into this CLA, and agree to be bound by its terms, by signing this CLA and submitting a copy to either of the Recipients. The above means are the preferred means for you to submit the signed CLA. However, this CLA is still valid and binding if it is signed by you and received by either of the Recipients through other means. You acknowledge and agree that the Recipients are relying upon you entering into this CLA and agreeing to be bound by its terms when they choose to receive or use any Contributions.

2.0 Grant of Copyright License.

Subject to the terms and conditions of this Agreement, Contributor hereby grants separately to each of the Recipients an irrevocable, perpetual, non-exclusive, worldwide, no-charge, royalty-free, irrevocable license, under any and all copyrights owned by Contributor or licensable by Contributor (whether at the time of Contributor’s submission or anytime thereafter) to use, reproduce, prepare derivative works of, publicly display, publicly perform, and distribute the Contributions (or portions thereof) and any such derivative works. If Contributor is a Company (as set forth on the Cover Page), then this license also includes any and all copyrights owned by or licensable by any of Contributor’s Affiliates (whether at the time of Contributor’s submission or anytime thereafter). This license includes the right to grant sublicenses.

3.0 Grant of Patent License.

Subject to the terms and conditions of this Agreement, Contributor hereby grants separately to each of the Recipients an irrevocable (except as set forth below in this section), perpetual, non-exclusive, worldwide, no-charge, royalty-free patent license, under any and all patents owned by Contributor (whether at the time of Contributor’s submission or any time thereafter) to make, have made, use, offer to sell, sell, import, and otherwise transfer the Contributions and any derivative works thereof, whether alone or in combination with other works, where such license applies only to those patent claims that are necessarily infringed by the Contributions alone or by combination of the Contributions with the Project. If Contributor is a Company (as set forth on the Cover Page), then this license also includes any and all

patents owned by or licensable by any of Contributor's Affiliates (whether at the time of Contributor's submission or anytime thereafter). This license includes the right to grant sublicenses, provided that: if any person or entity institutes patent litigation against Contributor (including a cross-claim or counterclaim in a lawsuit) alleging that the Contributions constitutes direct or contributory patent infringement, then any patent sublicenses granted to that person or entity under this Agreement for that Contribution shall terminate as of the date such litigation is filed.

4.0 Representations and Warranties.

4.1 Contributor represents and warrants that Contributor is legally entitled to submit the Contributions that are submitted by or on behalf of Contributor to the Recipients and to grant the above licenses for all such Contributions. Contributor represents and warrants that Contributor is not violating or breaching any agreements or obligations Contributor may have with any other person or entity by either submitting any Contributions or granting the above licenses.

4.2 Contributor represents and warrants that Contributor (or, in the case where Contributor is a Company (as set forth in the Cover Page), Contributor's Affiliates) own all copyright rights in and to each Contribution, and that no Contribution contains any trade secrets or other confidential information of any person or entity.

4.3 Contributor represents and warrants that Contributor is not aware of any patent claims that would be necessarily infringed by the Contributions, either alone or in combination with the Project, that are not included in the license granted above.

4.4 Contributor agree to notify the Recipients of any facts or circumstances of which you become aware that would make any of these representations or warranties inaccurate in any respect.

5.0 Authorized Employees.

If Contributor is a Company (as set forth on the Cover Page), you agree to provide a list of authorized employees to the Recipients, and to keep such list up-to-date. This list shall identify those of Contributor's employees that are authorized to make Contributions on Contributor's behalf under this Agreement.

Unless required by applicable law, and except as set forth above, Contributor provides its Contributions on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE.

7.0 Waiver of Any Incompatible Terms.

If any Contribution is a modification or derivative work of any work owned by either of the Recipients, and such work is licensed by such Recipient to Contributor on license terms that are incompatible with the terms of this CLA, then such Recipient hereby waives such license terms, solely to the extent

necessary to enable Contributor to grant the licenses granted hereunder and otherwise comply with Contributor's obligations hereunder, and such license terms otherwise remain in full force and effect.
